1 Classification of Heat Exchangers - Indian Institute of Technology - A heat exchanger transfers heat from one fluid to another. Without heat exchangers, many of the products that we use today would not be possible. Without a radiator (which is a heat exchanger), Thu, 10 May 2018 21:29:00 GMT
Heat Exchanger Design - KNTU homepage webFTP client - Additionally, many of the passive heat transfer enhancement tools like fins and rough surfaces can easily be installed in the plate heat exchanger as compared to the conventional heat exchanger. This is why finned plate heat exchangers [6] and gasketed plate heat exchangers [7] are widely spread in many industrial applications. Fri, 04 May 2018 12:11:00 GMT
